TECHNICAL OFFER

ToR/S4W/19/2026 – Video Production Specialist – Jordan

To: Leaders International for Economic Development / Skills4Work · Date: 12 November 2026

FAII HOUSE

Youth film team, Irbid – Jordan

Lead: Ahmad Haddad

1. WHO WE ARE

Faii House is a team of young freelance filmmakers from Irbid, led by director and cinematographer **Ahmad Haddad**. We are not a registered company: each member works as an independent freelancer, and Ahmad applies as the individual consultant and contracting party, issuing invoices through the national e-invoicing system. Our line is simple: we make stories that resemble the people in them.

Ahmad has worked in photography since 2014 and in cinema since 2018: 175+ projects, 100+ brands, filming in Jordan, UAE, Saudi Arabia, Tunisia, Morocco and Mauritania. He directs, shoots, edits and grades (DaVinci Resolve) himself, and works with the full chain from storyboard to delivery.

2. RELEVANT EXPERIENCE – NGO, COMMUNITY AND HUMAN STORIES

- **UN Women** – campaign films «الرجال تقدر».
- **USAID** – «رجاء», a woman's story; **UNICEF**, **Mercy Corps**, **Erasmus** – youth and community content.
- **Community Jameel** – documentary on Minecraft Education.
- **Global Youth Coalition for Road Safety** – first prize, youth category (2022).
- **«عزوتي»** – second prize, Al Jazeera Documentary Competition 2022.
- **Qalby Etmaan** TV show (Khutwa Media) – human stories filmed in five countries; content for Al-Mamlaka TV (MEA Productions).

3. UNDERSTANDING OF THE ASSIGNMENT

Four people, four short films that show a real change in a working life: what they faced, what Skills4Work gave them, and what they do now. Each film should feel like the person's own story, not a report, while still showing what the donor needs to see: new skills, a job or business, income, and dignity for refugees and host community members alike.

4. METHODOLOGY

Pre-production (December). Briefing with the LI team on each beneficiary's background and results; a short call or visit with each beneficiary to build trust and choose places and moments to film; one storyboard per story (opening image, interview questions, B-roll list, closing line, teaser idea) sent for LI approval before filming. Informed consent from every beneficiary; names, faces and locations protected on request, with particular care for refugees.

Filming (one full day per beneficiary). Interview in their own workplace with two cameras, lav and boom sound and controlled light; B-roll of real work and daily life (hands, tools, customers, the road to work); vertical 9:16 shots framed on set, not only cropped later. All travel and logistics across governorates are on us.

Post-production (January – February). One 60–90 s 16:9 Full HD film and one 15–30 s 9:16 teaser per beneficiary; colour grading in DaVinci Resolve; sound clean-up, mix and licensed music; Arabic and/or English subtitles; LI, RDPP III and Denmark logos, acknowledgements and disclaimers per the visibility guidelines; up to three revision rounds on consolidated feedback. Delivery as Full HD masters, web-optimised MP4s, and complete raw footage.

5. WORK PLAN

PERIOD	ACTIVITY
Weeks 1–2, December 2026	Briefing, beneficiary calls, four storyboards for approval
Mid December 2026 – January 2027	Four filming days, scheduled with LI and the beneficiaries
January 2027	First cuts and teasers, revision rounds
February 2027	Final delivery and raw footage hand-over

6. TEAM

- **Ahmad Haddad** – director, cinematographer, editor, colourist.
- Sound recordist – interviews and ambience.
- Camera assistant / second camera operator.
- Available on request: a photographer for stills of each beneficiary, and additional camera crews if parallel filming days are needed.

7. EQUIPMENT

Cinema camera kits (Sony / Canon), prime and zoom lenses, gimbal, LED lighting, wireless lavalier and boom microphones with a field recorder, and a full editing and DaVinci Resolve colour-grading suite.
